

# The Leukaemia Foundation proudly presents:

## Disease Specific DVD's

The aim of the DVDs is to empower patients and their families by providing accurate up-to-date information and education regarding the diagnosis, management and treatment of leukaemias, lymphomas, myeloma and related blood disorders.

The series of six DVD's, each approx 30min in length, includes:

**Understanding Acute Leukaemias** - a guide for patients and their families. Presented by Haematologist Dr Andrew Wei.

**Understanding Chronic Leukaemias** - a guide for patients and their families. Presented by Haematologist Dr Dennis Carney.

**Understanding Non-Hodgkin Lymphoma** - a guide for patients and their families. Presented by Haematologist Assoc Prof. John Seymour.

**Understanding Myeloma** - a guide for patients and their families. Presented by Haematologist Prof. Miles Prince.

**Understanding Myelodysplastic Syndromes** - a guide for patients and their families. Presented by Haematologist Melita Kenealy.

The disease specific presentations are supported by the final DVD which explores the emotional journey experienced when a leukaemia, lymphoma, myeloma or a related blood disorder is diagnosed:

**Living with Leukaemia, Lymphoma, Myeloma & related Disorders** - a guide for patients and their families. Presented by Psychologist John Boyle.

The Disease Specific DVD's are valuable resource/educational tools for health professionals when providing patients with information, especially those in rural and remote settings.

The Leukaemia Foundation is in the process of supplying each haematology treating centre across Australia with a complimentary set of the DVD's. Health professionals can purchase their own copies at cost price.

**DVD set is priced at a cost price of \$25.00**  
(+ postage and handling)
